Spoken English Certificate Course

Aims and Objectives of course:

Students for whom English is a second language of communication have many challenges when speaking English. Although they develop good vocabulary and learn to use sentences with minimum grammar mistakes, their pronunciation leaves much to be desired. However hard they work, the students can correct their pronunciation only with the help of a professional trainer of pronunciation. Unless this happens, their listeners will not understand them and proper communication will not be happening. This Speaking Skills course gives any student correction and guidance right from the basic diagnosis of individual pronunciation discrepancies to refining one's conversational and presentation skills. Certificate Course in Spoken English refers to the basic language specialization program in English which is designed to enable the learners to cope with daily situations. The Certificate Course in Spoken English mainly emphasizes on providing the basic understanding of the language to the students. The course is primarily designed for those students who are beginners and slow in English. The basic objective of this certificate course is to gradually develop their LSRW- listening, speaking, reading and writing skills through the communicative approach of teaching and learning. The Certificate Course in Spoken English mainly emphasizes on providing the basic understanding of the language to the students. The basic objective of this certificate course is to gradually develop their LSRW- listening, speaking, reading and writing skills through the communicative approach of teaching and learning. English, as we all know, is the most preferred language for communication. This is the only reason why employers always look for good communication skills along with a strong hold over English language in potential employees.
