Dear Friend/Colleague,

Dr. Ambedkar College of Social Work, Wardha is going to organize a two days ICSSR sponsored international conference on the theme entitled, 'Revisiting the issues of the human rights of scheduled castes and scheduled Tribes' on 24-25th June, 2017, at Savitri Mai Phule auditorium, Dr. Ambedkar College of social work wardha. In the view of the fact that the struggle for human rights of scheduled caste and scheduled tribe is becoming challenging and need to handle with newer dimensions by studying the present day scenario of their human rights. Therefore, the conference theme is a matter of immense concern for all the teachers, research scholars and students representing a wide spectrum of academic subjects and disciplines. So, you are cordially invited to attend this conference along with your colleagues and friends.

About the theme :

The notion of Human Rights is a gift of contemporary human thought to culture and civilization of the present era. The struggle to promote, protect and preserve human rights changes and holds continuity in every generation in our society. The concept and practice of human rights is the hallmark of any modern society. Since time immemorial, the story of human rights has been the story of human wrongs. It is perhaps to contain and curtail the wrongs by one human being or a group or a body of human beings against the other individual, or a group of beings against the other, that the institutions like family to society as a whole come into existence. Man is born to be free and all that he must do is that be devoted to the wellbeing of human every kind of human being-of whatever race or religion, caste or creed or whatever sex and in all societies, developed and underdeveloped, traditional or modern. This truth this great objective, belongs equally to everyone. This also sums up the basic objective of human rights, which over the years has gained considerable importance in international thinking and has been the subject of much discussion and debate in recent times. These have been and still are, discussed in international forum such as United Nations, in national parliaments, and in the media, and civil rights activities have been taking up the cause of emphasizing the importance of human rights for a civilized and healthy Society.

As far as the socio-economic situations of Scheduled Caste & Scheduled Tribe is concerned the perspectives of human rights takes a broad view point. In the contemporary times, untouchability continues to be practiced today against Dalits. In everyday life situation, ex-untouchables subjected to segregation, insult, humiliation and frustrations and there is continuous violation of their human rights both in terms of their civil rights and their identity with which they want to live with freedom. The Adivasis are also becoming the victim of the imposed culture and are deprived of their civil rights and culture. India has the second largest tribal concentration in the world. In India, Scheduled Tribes are spread across the country mainly in forest and hilly regions. The essential characteristics of these communities are their particular geographical location, distinct culture, economic backwardness and aloofness from the society at large. These people, in our country, are treated as low, despised and untouchable by the prevailing adherence to man-made social norms and caste system. They are compelled to perform duties which are considered inferior and degrading like flaying the dead animals, cleaning the latrines and removing the garbage, guarding the cremation grounds and grave yards, weaving, drum-beating, entertainment of upper caste people etc. Keeping this very in mind we are organizing this conference to revisit the issues of the human rights of scheduled castes and scheduled Tribes.

**"Role of Social Work Practitioner in Frontline Services in
Post Covid-19 Pandemic Situation"**

Frontline Social Services in the Post- Covid 19 Pandemic – Role of Social Work in
Systems" Organized by:- IQAC (Achieving Internal Quality)

Date 15 June 2020

Report

Introduction :-

Covid-19 in India started from 21st March 2020. Due to the rapid spread of Corona in the first phase of this epidemic, the number of Corona patients in India started increasing rapidly. As an effective measure to control the spread of Corona, the Government of India suspended the work of all government, non- government offices, educational institutions, public places, and their work and prohibited gatherings in public places and market areas. And providing services from home, the working method accepted.

The government issued some guidelines and rules for effective control of Corona epidemic. And implemented the system and procedure of government non-government employees for control work. There was no inclusion of social workers in the front line system of this service work. The lack of scientific handling of social and psychological problems and problems while working in this system was clearly evident. Due to this, an atmosphere of complete disagreement, misunderstanding and fear was created in the society. Keeping in mind all these facts, the situation of tension and mental fear created in the families and the general society in order to deal with and manage the social worker in a systematic way, to bring the importance and role of the social worker in the vision of the background government and social work educational institutions, students, former economic and social workers. Discussion at national level about what will be their role, duties and responsibilities Collage

Dr. as a moral responsibility of higher education institutions to do and to prepare a regular declaration in this regard. National Webinar organized by Ambedkar

Principal J/c.
Dr. Ambedkar College of Social
Work, WARDHA

College of Social Work Wardha on 15 June 2020. The following type of organizing committee has been constituted for organizing this national webinar was done

Organizing Committee :-

1. Dr. P.L. Wankhede
2. Dr. S. D. Bhoikar
3. Pvt. M.B. Sawai

Event Organizer

1. Dr. Milind A. Sawai

Principal Dr. Ambedkar College of
Social Work, Wardha

2. Dr. Anandprakash R. Bhele coordinator
And IQAC department head

The present workshop was moderated by Dr. Pravin Wankhede. Guest Introduction by Dr. Sunita Bhoikar. Technical Assistant Sachin Mun, Rupesh Khate. Prof. Pravin Wankhede Pvt. Ashish Katore and Prof. Done by Magarde Sir. In the final stage of the workshop, the responsibility of feedback and certificate distribution was executed by Hon. Dr. Pravin Wankhede.

After the opening ceremony, the concept of the workshop and the presentation of the reasons behind it and the need will come by Dr. Milind Sawai. In it, he has shown how terrible the outbreak of this epidemic is in the global and Indian situation. So what has happened to the migrant workers due to the shutdown of the industry and service sector. How women, children and old people are suffering because the migrant workers are walking in the hot sun while going to their homes. What is happening on this occasion? People are dying on this pandemic. from village and city Corona patients are dying due to fear. Corontine center are prepared for the patient who was suffering from the corona.

When presenting the adverse effects of family members, treatment heads and domestic problems, family disputes due to work, hunger, addictions, visible behavior to the family is a very painful blow to the society. In fact, there is an urgent need for family counseling here. Women and children of the families of the village have started begging for alms in and outside the poor family due to economic evil. Many families have ration cards and residence documents like Aadhaar card etc. Many people do not get food due to lack of items. So in this work we can mediate between the collector office and such needy families and

Principal I/c.
Dr. Ambedkar College of Social
Work, WARDHA

help them by making a list in the villages and communities to supply them with food grains.

In family counseling, we can focus on their family conflicts, misunderstandings, harassment, etc. In this, you can use various technical tools. In the case of family violence, you can also take the help of the police system. Community Counseling Center, Mobile Counseling Service Helpline Center can work effectively with the help of Collector Office by taking the help of District Protection Officer and system of Women and Child Development Office. Information Center Counseling Center should be started through College of Social Work and through family survey real information about family behavior can be obtained. Economic and Industrial Labor Problems:

While analyzing the economic and industrial results, Dr. Ambadas Mohite said that the biggest impact of the corona epidemic was on industry and manufacturing. Loss incurred by Air India and Indian Air Line, hotels, industries, railways, industrial sector all the production sectors were shut down, the economic condition came to 04. The country lost thousands of crores of rupees. Also, the employment of lonka was lost. The employment of over two crore people was lost. More than 60 lakh people had to leave the cities and return home in whatever condition they felt at home. etc. We see the consequences of this kind of suffering of migrant workers in the media every day. People die on foot. accident

was They are being kept in the middle without any facility to return home.. This cannot be said to be an ideal model of disaster management at all. The number of hospital beds, health care, medicine is showing poor picture. People are falling prey to various rumors of the spread of the disease. We are all ostracizing them.

Social Effects - From a social point of view man is moving away from man. Social discord and distance is falling. Desecration of the house is seen as inhumane. How much the insensibility after death has increased. People are turning to alcohol due to misinformation. Social relations, relationships, all come to an end. Only a few social organizations and institutions come forward and lend a helping hand. But this facility is broken. Extortion and crime and economic poverty are gaining momentum.

According to the mental effects, the mental problems that arise in all people are mainly the result of the corona epidemic. Hence anxiety, despair, self- doubt, fear, prejudice, vaishya, angst, anger, suicidal tendencies, suicidal tendencies etc. Hence mutual trust is ending.

Principal I/c.
Dr. Ambedkar College of Social
Work, WARDHA

While giving guidance regarding the role of social work, he said that the role of social work education institution is important. Social work institutions should come forward to provide community-oriented services.

A lot of questions were asked after the main orientation of the national seminar. Some of the major questions were as above. G. Mahesh presented his thoughts by answering the following questions.

9. State government can submit a proposal to the government that social work professionals can work in the role of advocacy and such work is ongoing.

2 In this regard, the committee may form a group to work at the community level

Colleges can take the initiative to provide counseling services in community service administration as institutional services in which quarantine centers and

Dr. Ambedkar College of Social
Work, WARDHA

families can be recruited as counseling volunteers to provide quarantine services. Similarly, some guidance sessions on lifestyle changes can be conducted. Now we are in the digital era, we are using our technology knowledge and

By increasing the skills, we can guide and help the needy in a better way. In such a situation, it is necessary to implement the process of disaster management.
